Network engineer resume template

NETWORK ENGINEER

—

LANCE KLUSENER

City, State
555-555-5555
www.lance.com

—

SUMMARY

Goal-oriented and collaborative IT professional with more than many years of experience applying hardware and software design, installation, administration and configuration to support growing businesses. Seeking a challenging and rewarding Network Engineer position where my experience, training, and unique abilities, coupled with my strong sense of motivation, would be of mutual benefit.

SKILLS

- VMware
- SCSI Devices
- Active Directory
- IDE Hard Drives
- Direct Attached Storage
- Microsoft Office Suite

WORK EXPERIENCE

TechUSA 2009-12 - Present
Network Engineer

- Designing and implementing campus networks for several locations which included various services such as corporate data, MPLS, VoIP, WiFi, CCTV, dual-homed redundancy, IEEE Layer 2 and 3 security, etc.
- Performing as a lead engineer in a corporate headquarters move project which included the installation of redundant WAN connections, Cisco Identity Services Engine (ISE), multi-layer Cisco 4000 and 6000 series switches, VSX, multiple ASR 9000 routers, and multiple 3000s.
- Assisting in collecting the network core to the data center to remove complexity from data center environments.
- Acting as a lead on several networking projects which required gathering needs from application and business owners, ordering and configuring necessary equipment, managing vendors and installations, testing the implementation.

Via USA Inc 2008-05 - 2009-11
System Administrator

- Installed, Configured and Monitored the windows 2003/2008 servers.
- Configured and managed the Cisco Routers.
- Worked on Ethernet/LAN Switching, VLAN, WAN Interface Configuration, VTP Configuration, WAN Technologies.
- Troubleshooting the hardware and software issues while building the Servers.
- Designing, configuring, monitoring and troubleshooting LAN/WAN.
- Weekly backups of millions and user data.
- Restrict users from installing new software on their machines, changing desktop settings, sharing and mapping drives, administrative and other rights.
- Assisted in or acted as the primary individual in evaluating the efficiency of server and client operations.
- Recommendations, involved equipment and system efficiency need for replacement and adequacy of servers for classified and unclassified systems.
- Performed other specific system administration duties as defined in working practices.

Jacobs Engineering Group Inc. 2006-09 - 2008-04
Technical Support

- Provided help desk support and remote technical troubleshooting using Microsoft Remote Desktop and Remedy remote service software.
- Met with and educated customers on networking environments and client service offerings.
- Proactively maintained current knowledge of competitive products and services.
- Troubleshooting hardware problems with network cards, video cards, sound cards, motherboards, modems, etc.
- Installed, configured and maintained printers for the entire company.

EDUCATION
