AVIATION INSTRUCTOR'S HANDBOOK FAA-H-8083-9A

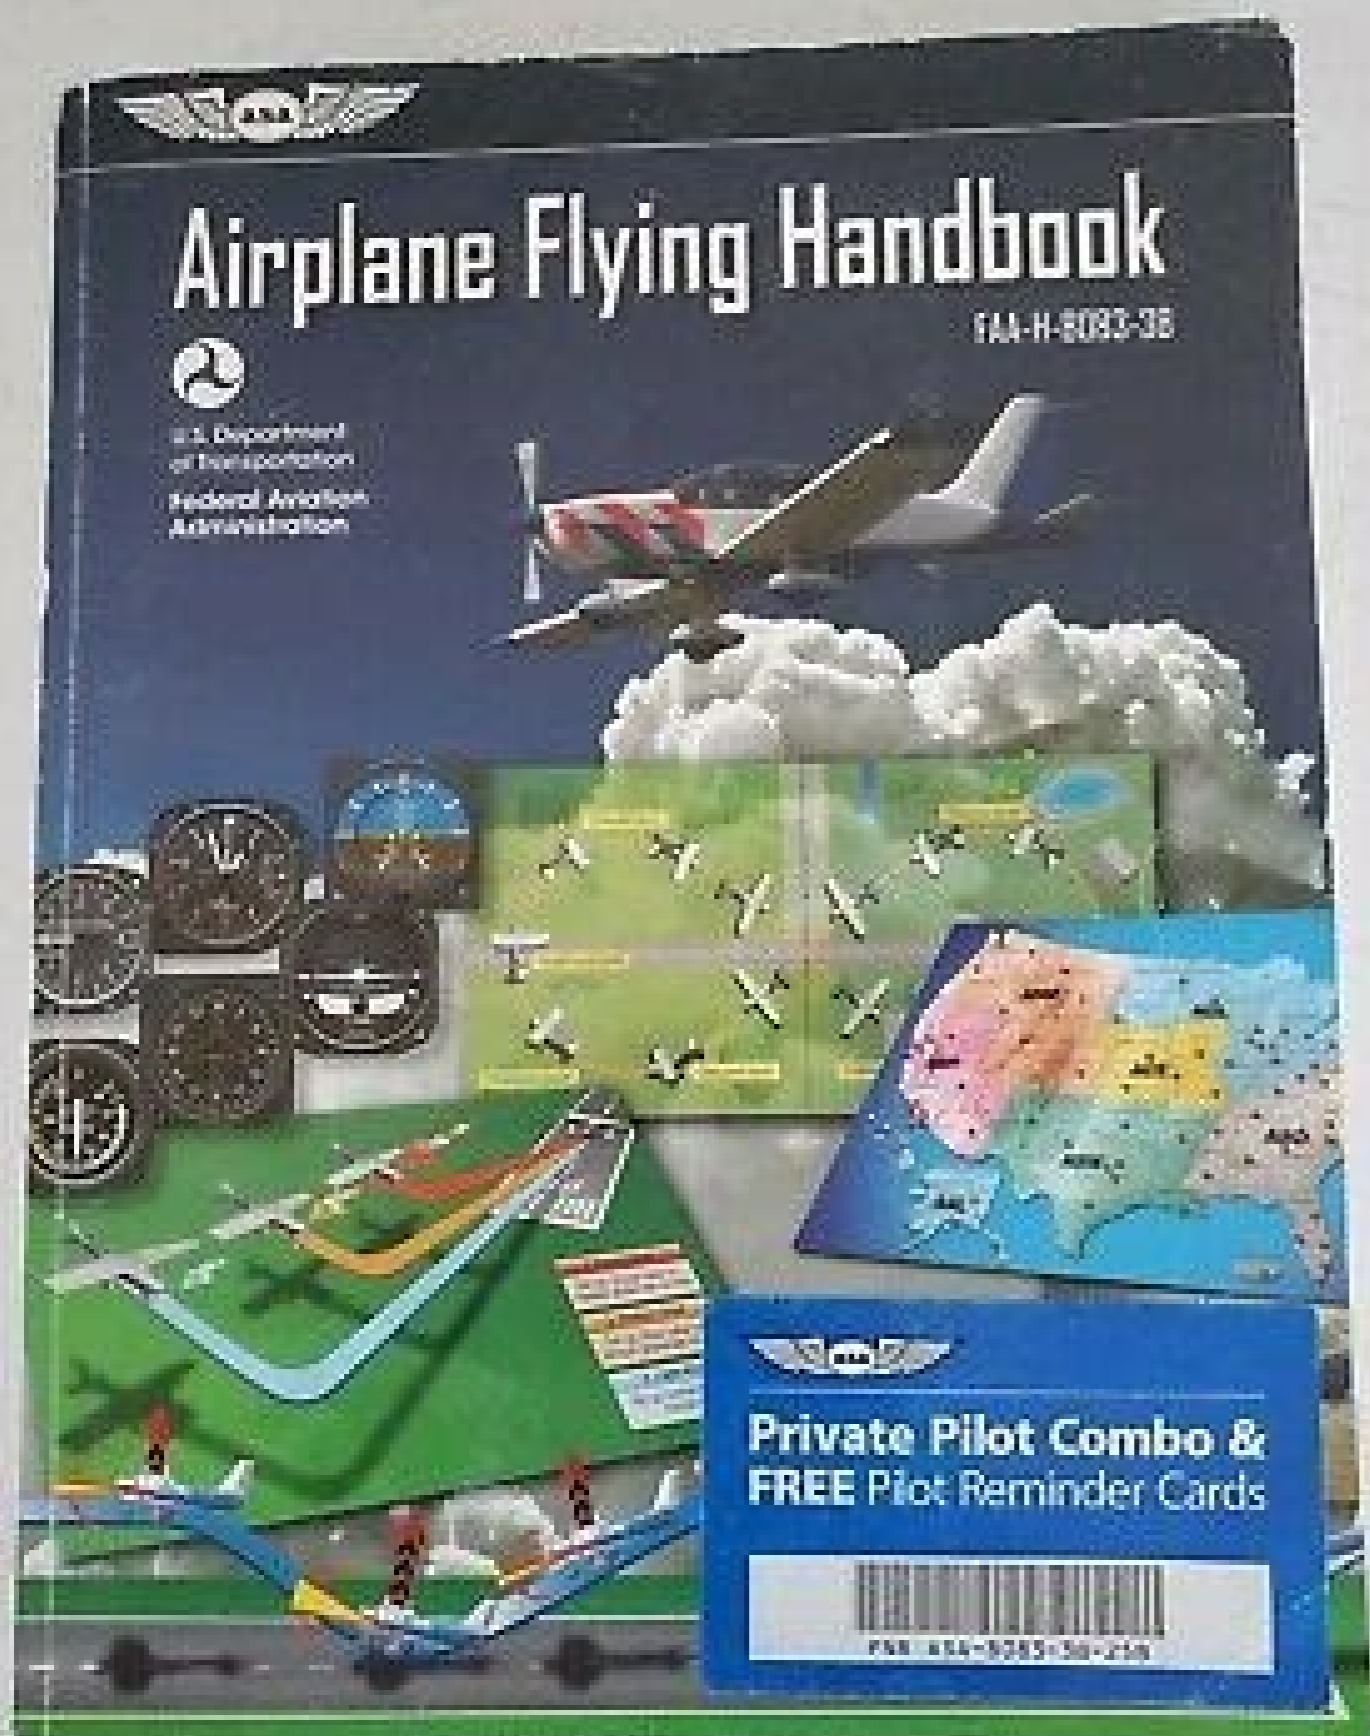

read for LibriVox by Norman Elfer

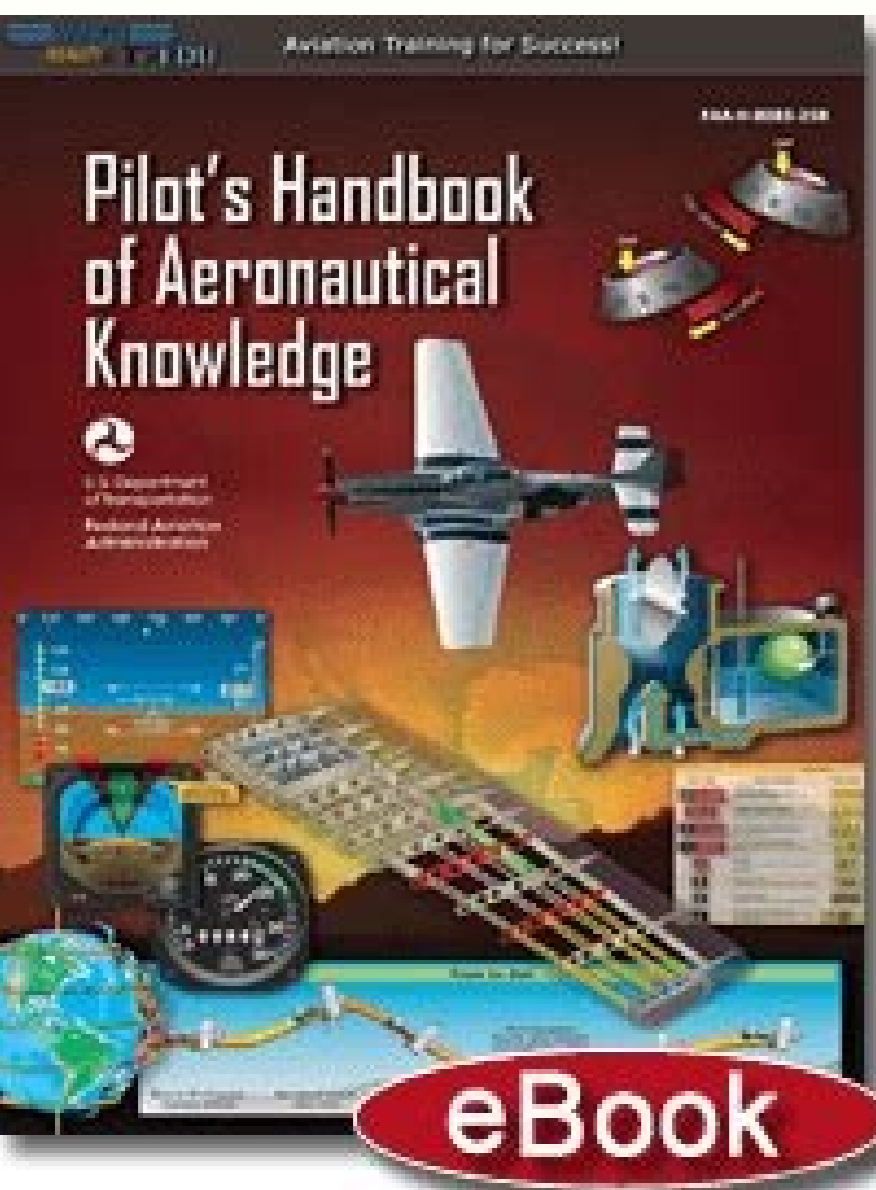

RATE OF DESCENT TABLE

A rate of descent table is provided for use in planning and executing precision descents under known or approximate ground speed conditions. It will be especially useful for approaches when the localizer only is used for course guidance. A best speed, power, altitude combination can be programmed which will result in a stable glide rate and altitude favorable for executing a landing if minimums exist upon breakout. Care should always be exercised so that minimum descent altitude and missed approach point are not exceeded.

ANGLE OF DESCENT (degrees and tenths)	FEET /NM	GROUND SPEED (knots)										
		30	45	60	75	90	105	120	135	150	165	180
2.0	210	105	160	210	265	320	370	425	475	530	585	635
2.5	265	130	200	265	330	395	465	530	595	665	730	795
2.7	287	143	215	287	358	430	501	573	645	716	788	860
2.8	297	149	223	297	371	446	520	594	669	743	817	891
2.9	308	154	231	308	385	462	539	616	693	769	846	923
3.0	318	159	239	318	398	478	557	637	716	796	876	955
3.1	329	165	247	329	411	494	576	658	740	823	905	987
3.2	340	170	255	340	425	510	594	679	764	849	934	1019
3.3	350	175	263	350	438	526	613	701	788	876	963	1051

Faa-h-8083-30 download.

The aviation maintenance companion manuals of the aviation maintenance technician are the mechanics powerplant diagram, the AC 65-12A manual and the mechanics powerplant diary, the AC 65-15a. Because there are so many different types of frames and powerplants in use today, it is reasonable to expect that the differences exist in the components and systems of each. It is understood that this manual will provide basic information about technical principles, fundamentals and procedures in common object areas for both airframe and powerplant assessments. The A manual is designed to help students enrolled in a formal education course preparing for FAA certification As a maintenance technician and for current technicians wishing to improve their knowledge. Voluminate to this volume A a section addressing the success of successful aviation maintenance technicians incorporate knowledge and awareness of ethics, professionalism and human factors in the field. The Airplane Comrade Manuals Technical Maintenance Manual - General (FAA-H-8083-30A) are the manual of the Aviation Maintenance Engineer Manual (FAA-H-8083-31 as amended), and the manual of the Aviation Maintenance Engineer Manual - Powerplant (FAA-H-8083-32 as amended). This manual is available for download in PDF format from www.faa.gov. Please visit this website for the latest version of all FAA.A A manuals
